

NATHAN BISHOP MIDDLE SCHOOL MATH COURSE MAP

Understanding this Course Map:

- 1) Some students will have TWO math classes: every other day Intervention, and every day Core Math
 - a. These students will only remain in Intervention each year if they still need it
- 2) Most students will have ONE math class. The color of the box indicates the grade level standards being taught in that course.
 - a. 6th Grade Advanced Math covers all 6th-8th math standards
 - b. Accelerated 7th Grade Math covers both 7th and 8th math standards
- 3) High School courses taught at Nathan Bishop require successful completion of 8th grade Math.
 - a. It is possible for an 8th grader to take both Algebra I and Geometry if they choose.
- 4) 9th grade courses shown are a traditional model, but may not reflect all the options available at the High School they attend.
